“La Saint-Nicolas” for all

Three innovative artistic projects around the SYMBOLISM OF THE SHOE

Local citizens from different horizons came together to work on a creative and cultural process that gave birth to three artistic projects linked to La Saint-Nicolas while diving in their own life experiences.

Brought together around the symbolism of the shoe, seen as an indispensable accessory for a migrative journey and, at the time, as the place where the Patron Saint delivers his gifts to the children, three innovative projects of civic art invite us to reflect together on the meaning behind the festivities of the Saint-Nicolas.
